1. VMware: vSphere Essentials, Ess. Plus, Standard, Enterprise and Ent. Plus (v. 5.5. 6.0, 6.5) Hyper-V: Windows Server 2012 R2 and Windows Server 2016
2. Geo-redundancy ensures a replicated copy of the data on Datto's cloud is kept within the local geographical area. e.g. Canadian datacenters replicate content between each other, and maintain all data within Canada.
3. Device seeding on Virtual SIRIS for Hyper-V platforms requires Datto-provided RoundTrip NAS unit (personal drives not supported). In the event USB passthrough is unsupported, Datto provides a NAS Roundtrip.
4. Included granular recovery of Exchange, SQL, and SharePoint for all licenses through Kroll OnTrack's software PowerControls.
5. USB Export not available on SIRIS Virtual for Hyper-V or XenServer platforms. VHDx and VMDK un available to USB. VHDx and VMDK are only available via network share. In the event USB passthrough is

unsupported, Datto provides a NAS Roundtrip.
6. Screenshot Backup Verification not available on SIRIS Virtual for XenServer platforms
7. For vSphere Essentials, Ess. Plus, Standard, Enterprise and Ent. Plus (v. 5.5, 6.0, 6.5).
8. SIRIS 3 X1 supports 1 Agent, X2 supports 2 Agents, X4 supports 4 agents. X Pro Series devices support Unlimited Agents
9. Alto 3 is a Solid State Hybrid drive, meaning it is a hybrid of flash and spinning disk
10. Flash-based models only
11. Not available on X1, X2, or X4 models
12. IPMI is available on SIRIS 3 and NAS 3 Professional, Business, and Enterprise models. Not available on SIRIS 3X Flash models X1, X2, or X4.
